

The managers of the National Poultry Society's show held last night, P. T. Barnum, President, and A. B. Allen, Secretary. There was a large attendance of gentlemen, who feel much interest in the improvement of domestic poultry. There was considerable interest in consequence of the loss of Metropolitan in fixing up the new for the exhibition. Although many layers had been canvassed and rejected, it is reported that Mr. Barnum, be requested to loan to the American Museum, which he finally did.

It was estimated that all the expenses of the exhibition, including the premiums, would amount to about \$500. Mr. Barnum agreed to pay all of these expenses. Museum receipts and to hand over to the Society the profits which might accrue from the exhibition. This proposition was received with great applause. It was settled that the first show of the National Poultry Society be held at the Museum. Mr. Barnum agreed to make any additional charge for admission during the exhibition.

A list of premiums amounting to \$500 was adopted. It was agreed that exhibitors should be at no expense for care and keeping of the fowls while in the city. Most of the railroads have agreed to transport

The highest premium is \$50 for the best and best of pure bred fowls. The second, and so on, are \$20, \$15, \$10, \$8, \$5, &c., &c., for all others known.

We understand that there is a very strong inclination to show through the country, and that the poultry shown at Albany on the 7th, 8th and 9th will be sent down to show in this city.

As the chief object of the Society is to encourage improvement of domestic poultry, by bringing to comparison and sale as large a variety as possible of every part of the Union, the Managers have determined to make no charge whatever to competitors for the exhibiting their specimens.

Exhibitors will be admitted free at all times to the exhibition.

Food and water will be provided by the Society on exhibition and proper persons will be engaged to regularly feed and provide for them, without inconvenience to the owner.

Fowls intended for exhibition may be sent any time from the 1st February, and they will be taken care of Managers, free of expense to the owners. They are directed to the Poultry Committee, at the Armory

scum, New York."

We shall expect a big crowding, and probably a show of poultry ever seen in this country.

To the Editor of *The N. Y. Tribune*.

Sir: Having seen a letter from Joseph L. Fishel in your paper of this morning, in reference to state, that I have exchanged tickets for booking men, as is the custom in New York, giving our tickets signed by me, charging them a much less rate than the \$16 named; and as a rearrangement altering the Lake tickets to through rates from that place West until other tickets could be had. The understanding we have from the S. and of the Pittsburgh and Cleveland Railroad is, tickets would be taken up and exchanged at Chicago. I have been informed from Railroad Co., No. 7 W. Ave. York, Jan. 19, 1884.

We don't see that the above is satisfactory, but judge for themselves.

**NIBLO'S TO-NIGHT**—Music has taken on a new life. We have had "music for the million," now it is for the elite. Those who have neglected to listen to the grade of musical skill in this City of late, have lighted with the simple songs and childlike humor of musical entertainments prepared by Mr. Geo. Nibel, in which the children of the Five Points are the performers.

At the last exhibition at the Tabernacle a vast and very large and new demand for a repetition of entertainment at Metropolitan Hall. That has destroyed, probably by the hand of a worse enemy, the worst denizens of the lowest Five Points, the next most eligible place has been selected, and there have been anxious to see and hear what a fine training school for the children of the poor, will be the opportunity to-night at Niblo's, and to contribute something toward their support.

Henry Ward Beecher is to be the speaker of the evening, and Mr. Pease, Mr. Cuyler, Horace G. Jones
